Steve,

Here you go. I did not realize that you had even received this information. I could have sent this along when you made your original request. I thought you were needing everything. The re-submittal of the CD will be delivered later this month. If you need anything additional please let me know. Thanks and sorry for the confusion.

I just need the final report (no attachments) and a map showing where we dug on the property... nothing exact, just a nice blob on an aerial shot...

*With Regards, Steve*

Steve,

I can email you the individual files to get stuff over to her sooner if you think that would be helpful.

Just let me know.

Steve,

Please see below. I call Reverend Hahn back and he was trying to determine if the First Assembly of God, Bristow was the name of the church located within the superfund site. I told him that I believed that was the name of the church and that it is was no longer and active church and had a fence around the property. He then asked if the building was going to be knocked down and I told him that I did not know at this time and that the site was still being assessed. I also passed along your information. Thanks.
